МОСКВА 2022 г.

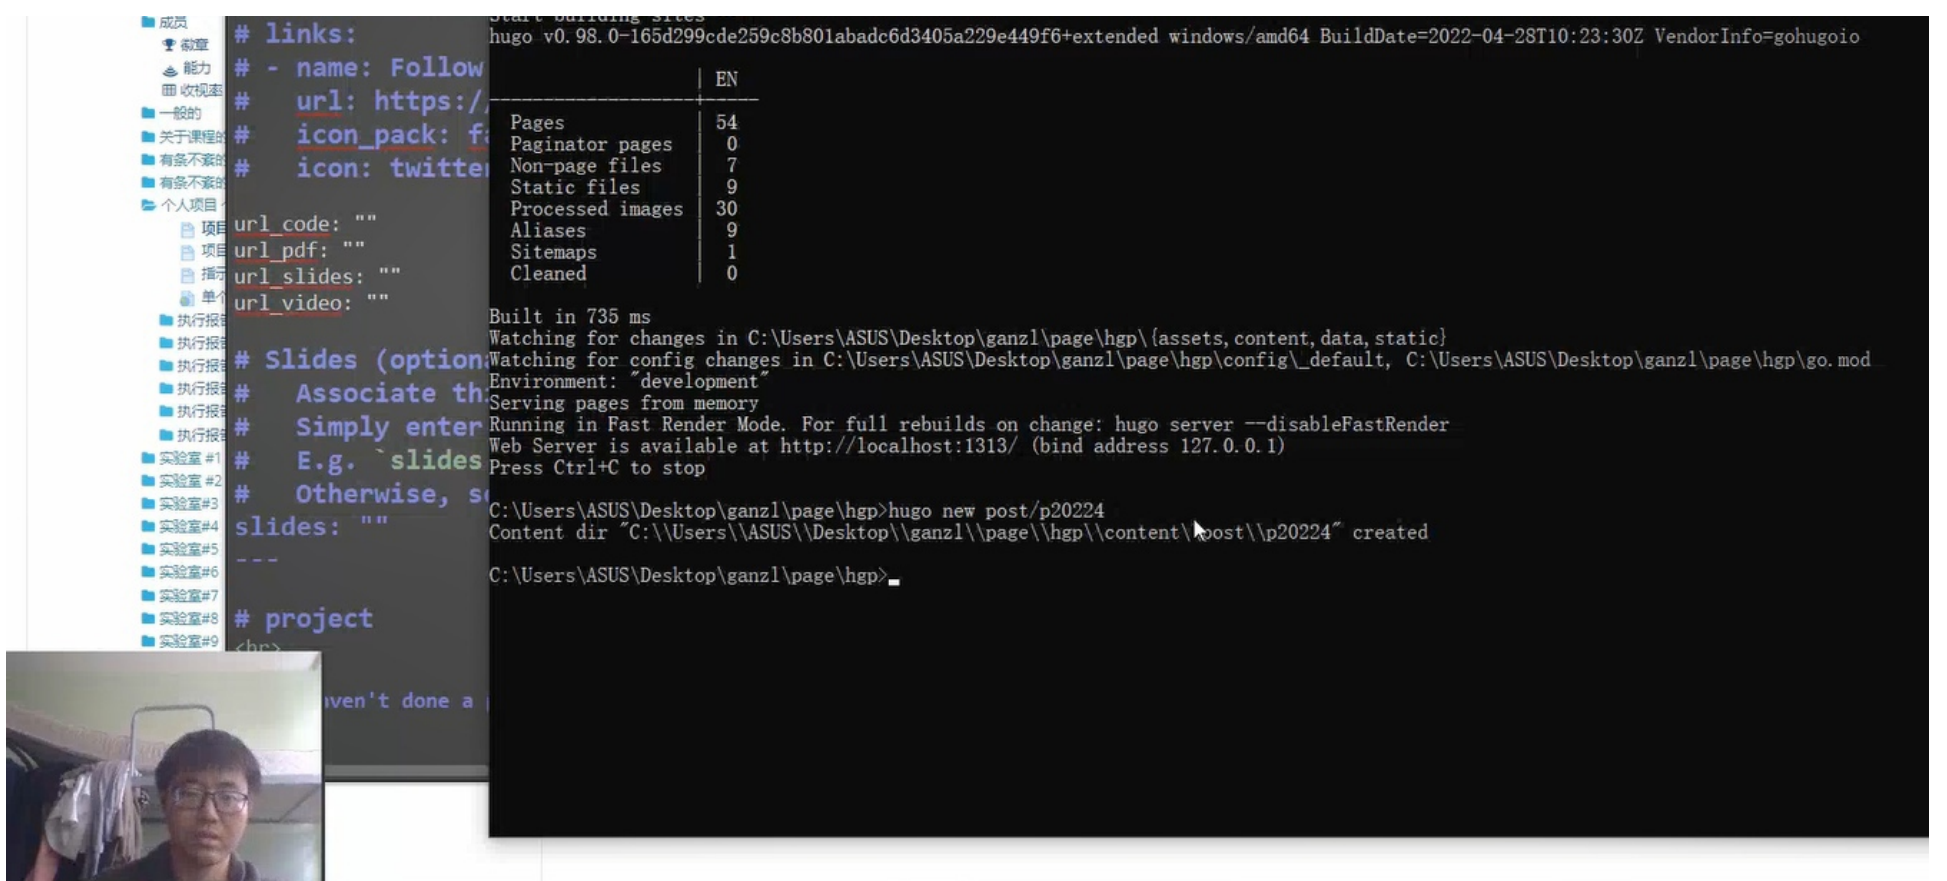

Сначала я захожу в службу hugo и создаю новый проект с именем C++ pro

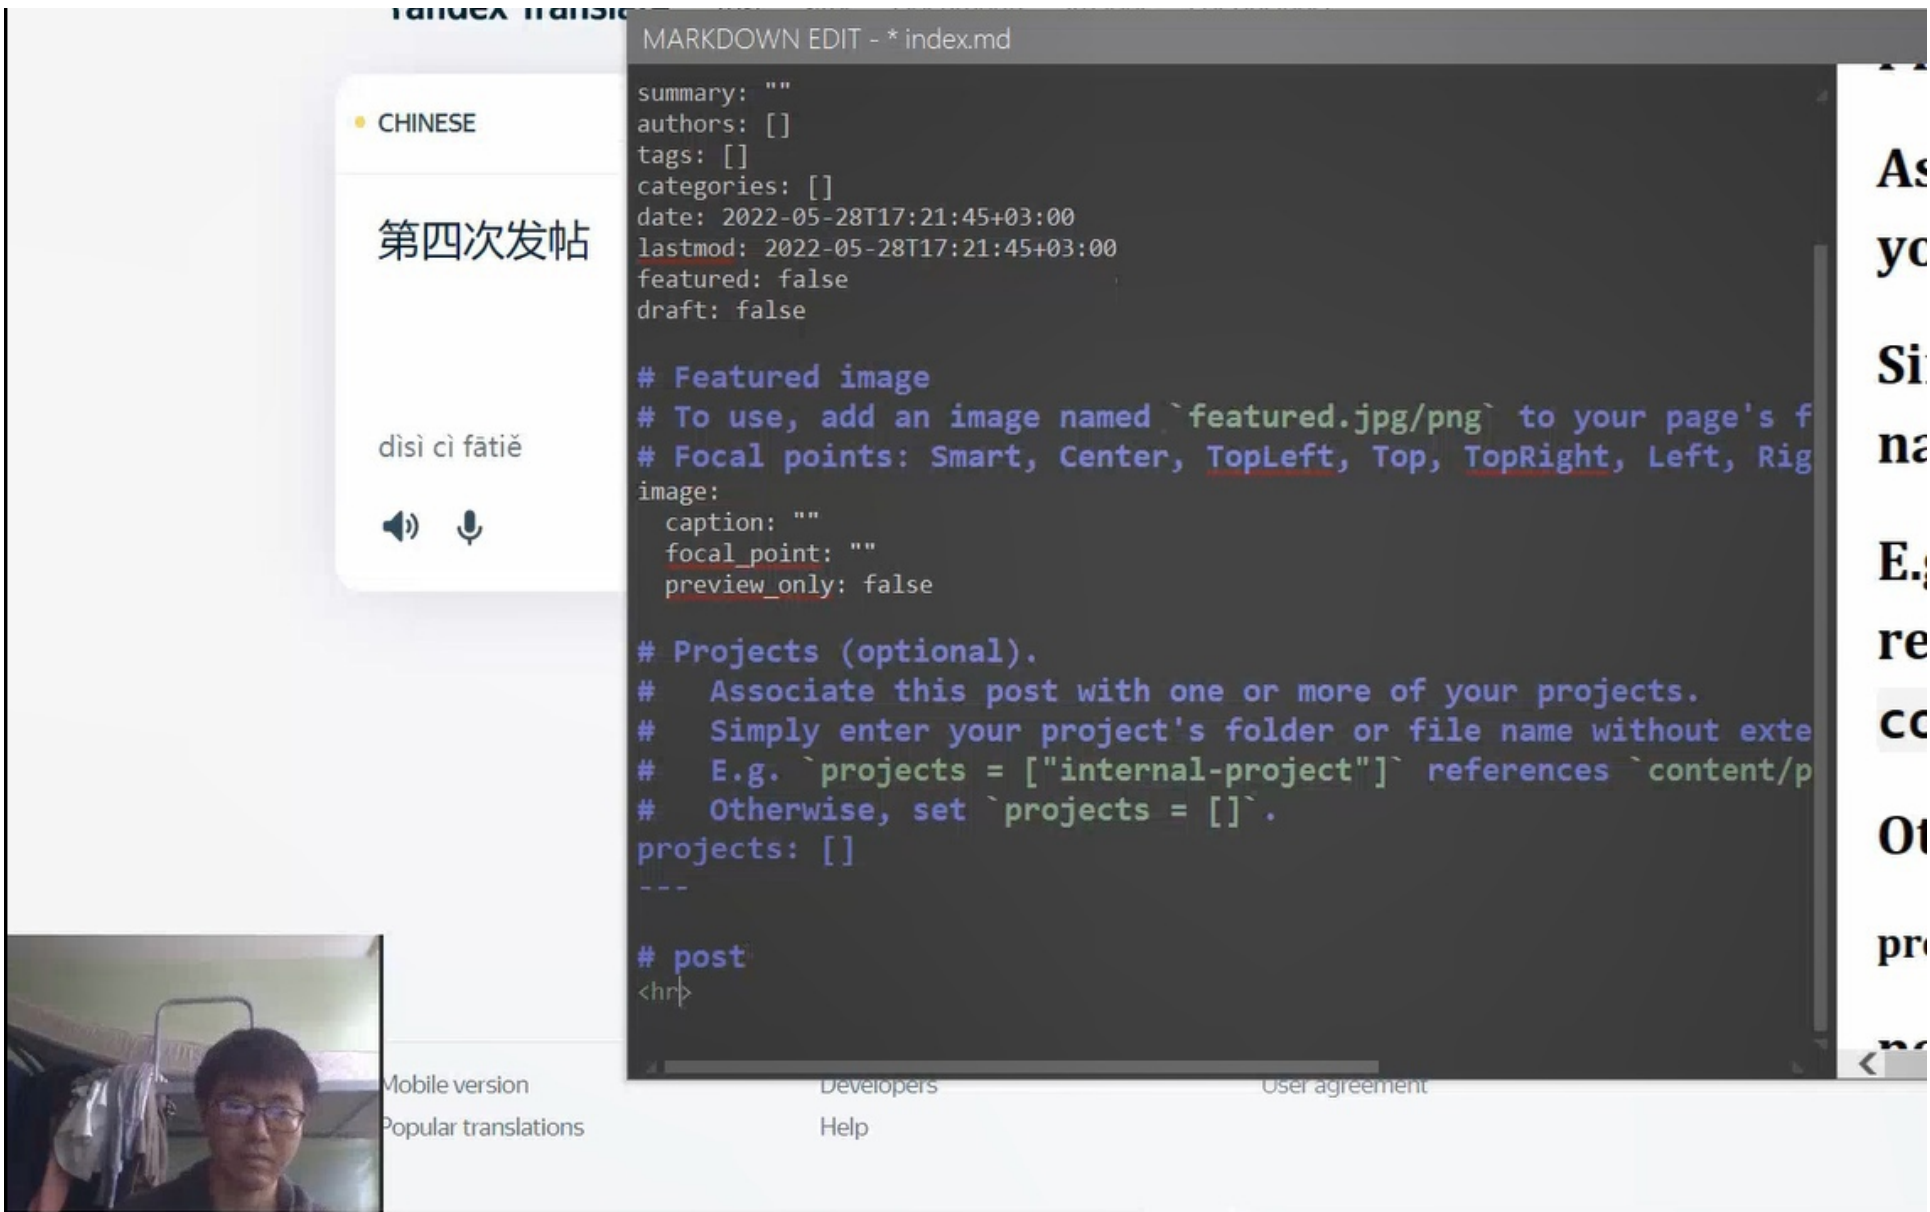

Затем я начал редактировать документацию для нового проекта

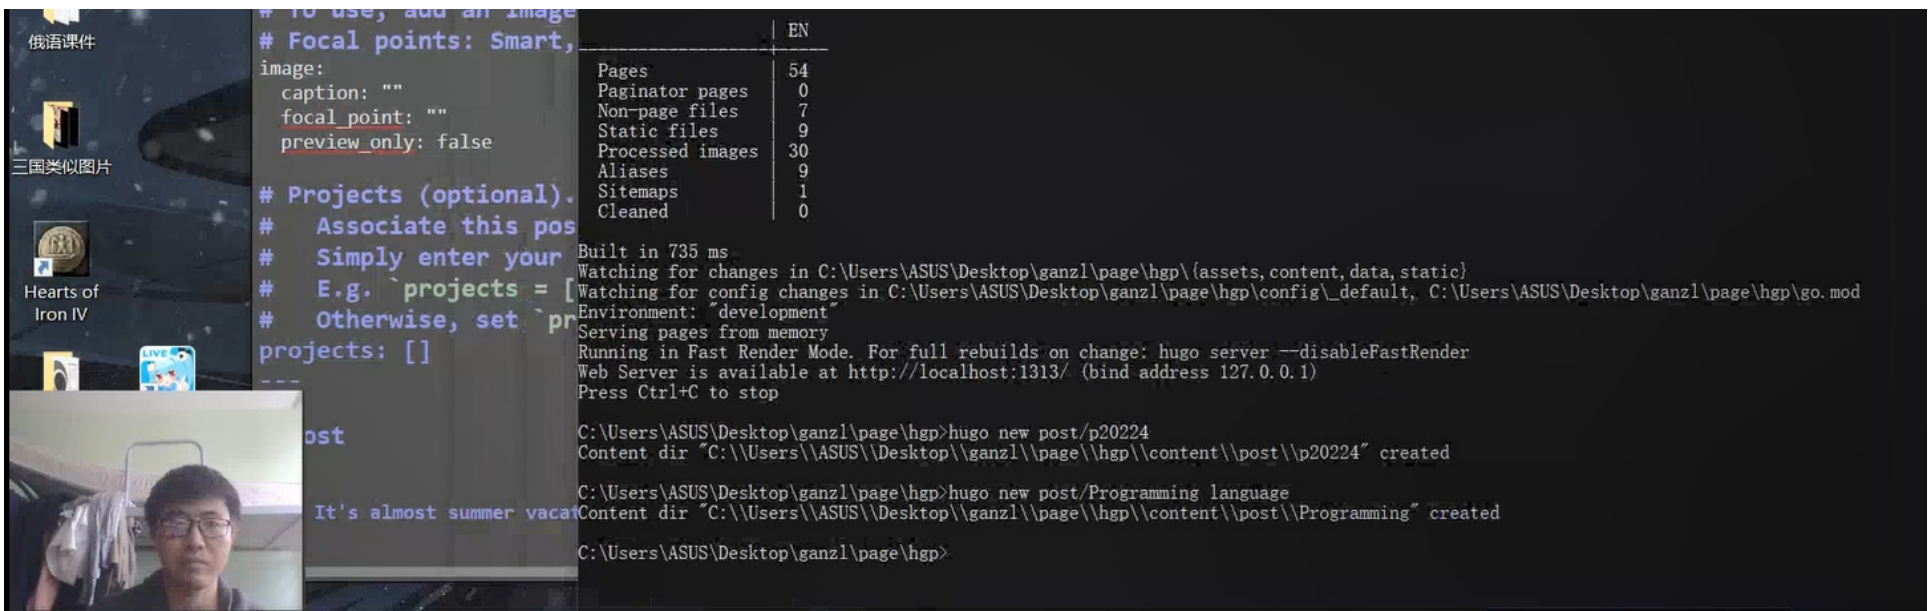

Затем я создаю новую запись с именем p20224

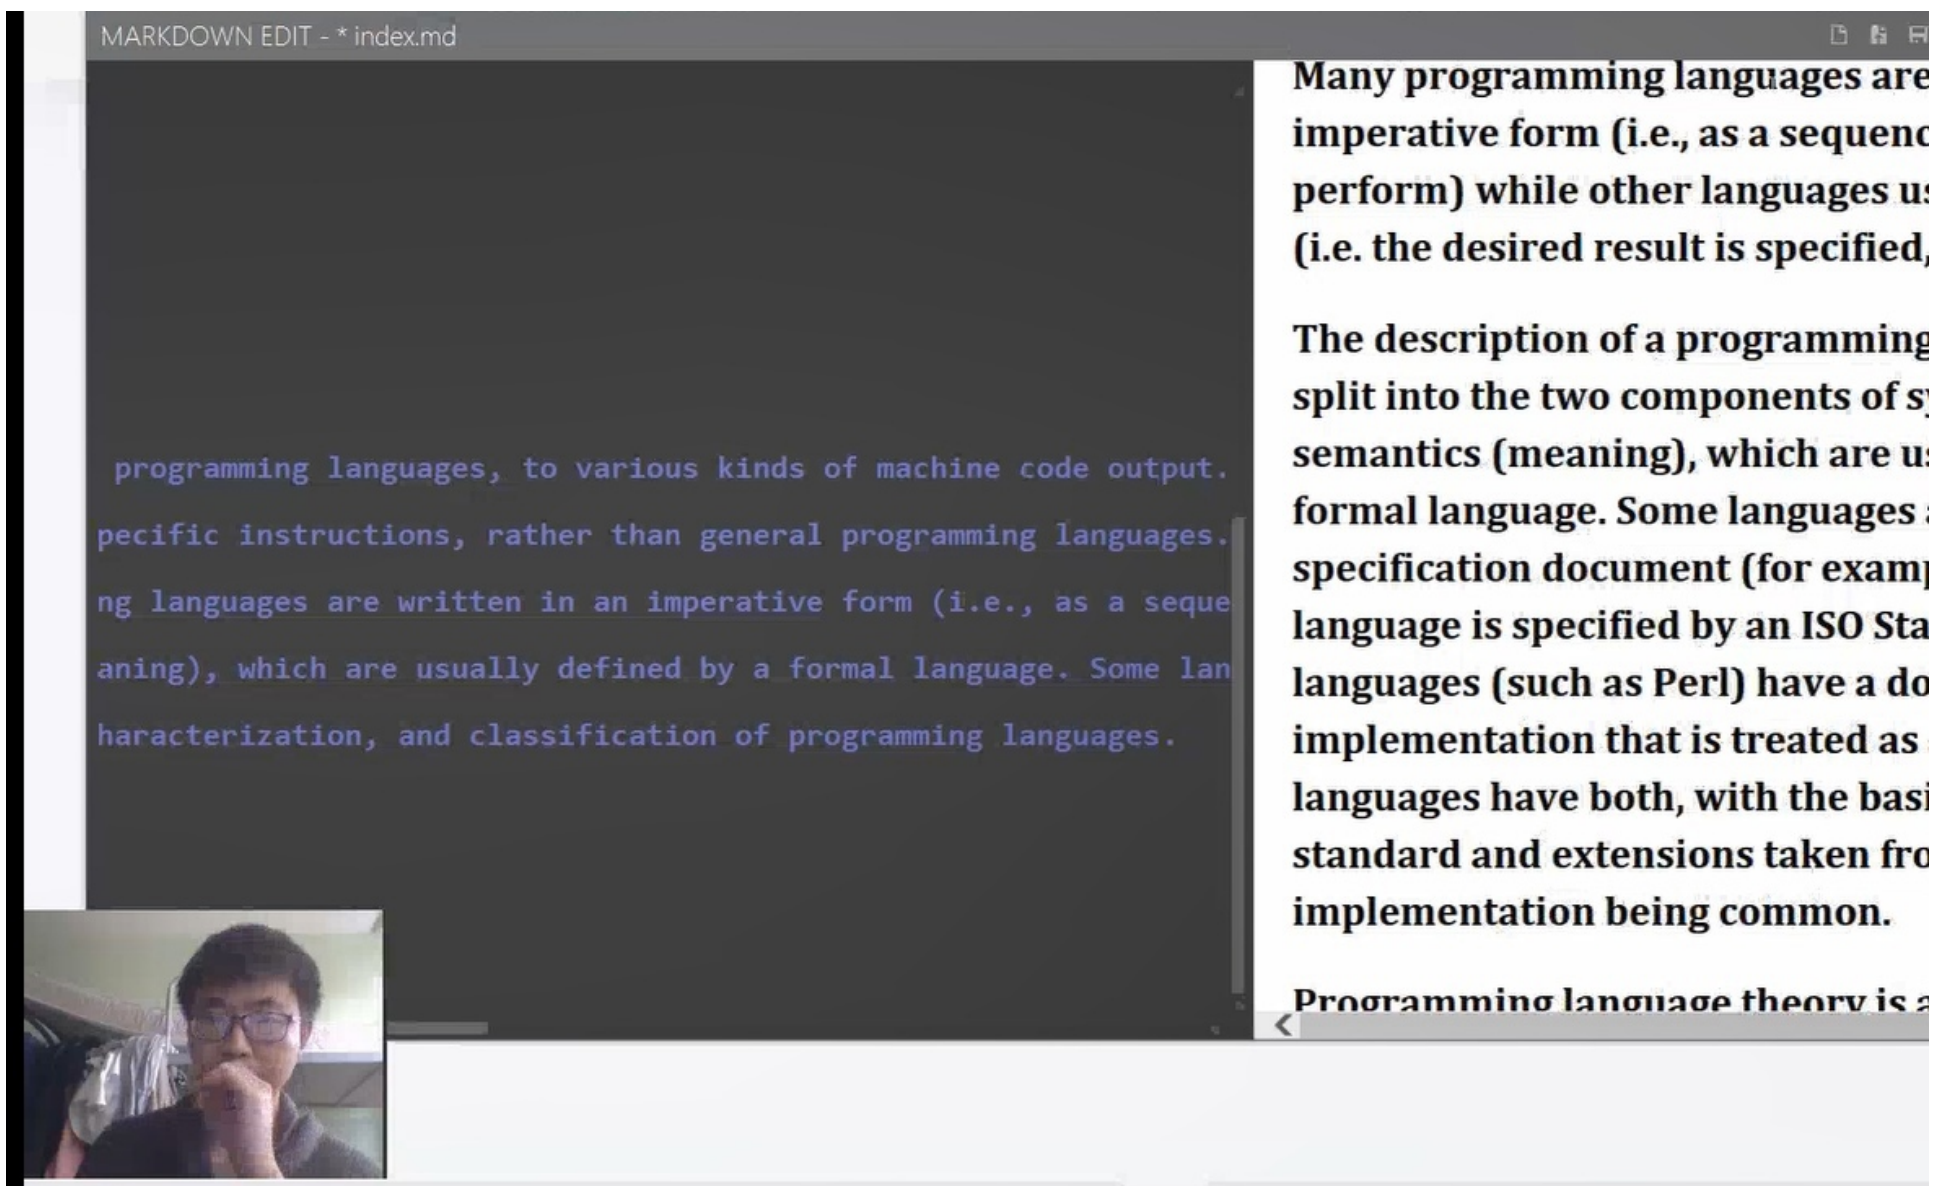

Затем я начал редактировать содержание поста

Наконец, я снова создал пост, название которого - programming

Затем я начал редактировать содержание поста

The screenshot shows a video lecture interface. The main part of the screen is a dark-themed code editor with the title 'MARKDOWN EDIT - * index.md'. It contains text about programming languages, with some parts highlighted in blue. To the right of the code editor is a white sidebar with additional text. In the bottom-left corner, there is a small video feed of a man with glasses, wearing a dark sweater, who is speaking and has his hand near his face.

MARKDOWN EDIT - * index.md

programming languages, to various kinds of machine code output. specific instructions, rather than general programming languages. ng languages are written in an imperative form (i.e., as a sequence aning), which are usually defined by a formal language. Some languages characterization, and classification of programming languages.

Many programming languages are imperative form (i.e., as a sequence perform) while other languages use (i.e. the desired result is specified,

The description of a programming split into the two components of semantics (meaning), which are used formal language. Some languages specification document (for example language is specified by an ISO Standard languages (such as Perl) have a documented implementation that is treated as languages have both, with the basic standard and extensions taken from implementation being common.

Programming language theory is a
